Post Peel Recovery Crème, 50ml

An essential home care product to assist with the healing of the skin after a chemical peel treatment. Contains ingredients to calm irritation & to prevent inflammation on the treated skin. This post peel crème will contribute to the results of the chemical peel & will help restore a healthy skin surface. Use for the first week after chemical peel. Needs to be applied every few hours or whenever the skin feels dry.

Added benefit: this face crème can also be recommended as an everyday moisturizer for mature skin which is often thin & has lost the ability to retain moisture.

Active Ingredients:

Glycerin - moisturizing & assists in retaining moisture in the skin, making skin soft & smooth.

Isopropyl Myristate - assists in quicker penetration of product & leaves a slicker, silky, sheer feel rather than an oily feel.

Grapeseed oil - antioxidant, rich in vitamins which moisturize the skin, balancing both dry & oily patches, to assist in reducing the appearance of scars & help diminish pigmentation, while tightening & restoring collagen to the skin. Anti-ageing, helping to reduce wrinkles.

Sunflower oil - antioxidant, rich in nutrients & loaded with fatty acids & vitamins. Effective against acne, inflammation & general redness & irritation of skin.
