PRE
STYLE

JAGUAR

Symmetrical position of the two finger rings delivers a traditional cutting sensation.

The offset position of the two scissor rings relieves tension in the muscles of the arm, neck & shoulders. Cutting becomes comfortable & effortless.

Short, downward-angled thumb handle for ergonomic working posture.

The angled thumb-ring reduces friction & pressure marks & gives secure control of the scissors.

The rotating insert-ring moves with the thumb. Friction & pressure marks are prevented without affecting the sense for the scissors.

High-quality coating prevents direct contact between the skin & the steel for protection in case of nickel allergy.

Guarantees the ideal cutting angle in any position, thereby delivering a precise, straight cut over the entire length of the blade.

V-teeth serration of the thinning teeth provides a smooth, soft feeling during closing. Hair is cut securely & precisely without slippage.

Classic blades with a flat cutting edge angle for excellent sharpness. Micro-serration on one blade avoids slippage of the hair.

Slightly curved thinning teeth fall flush against the lower cutting edge, which is also serrated, for the very highest standards in precision & cutting feel.

LEFT

The right combination of the two is even better. Hair Health & Beauty is excited to carry the TONDEO range for the most discerning of hairdressers. For more than 80 years, TONDEO is one of the world's leading brands of scissors. The scissors & razors are convincing in terms of their technology & design. A combination of precise hand-work, the use of state-of-the-art machines, technologies & years of know-how allow high quality, unique shears to be created. All made in Solingen, Germany.

TONDEO A-LINE

The A-LINE scissors are unique in their class as multi-talents for many techniques. Unilateral micro-serrating ensures a precise cut, keeping hair from sliding forward.

TONDEO EXPERT COLLECTION BOXES

Everything you need in one box for precise cutting experiences & techniques. Each box contains a scissor, thinner, special care set with oil & cleaning cloth, & specialized carry bag for secure storage & travel.

High quality scissors with an individually adjustable Easy-Quick screw system & setting key to alter the movement of the scissor. Maximum durability & lasting sharpness thanks to molybdenum steel.

Slim Box
Slim, ergonomic, offset shape with forged finger hooks & polished finish. Narrow cutting edge for better access to hair, perfect for precise work. Sharp, predictable cut thanks to semi-integrated cutting edge & long, stable, convex blade. Suitable for all cutting techniques - especially contour area.

- Includes:
- Offset Scissor, 5.5 inch
- Offset Thinner, 5.25 inch (33 prism teeth & slice edge)
17533

Solid Box
Functional design with a unique polished look. Pronounced shape & angled thumb eye design for relaxed work. Stable cutting edge with wide dagger blade for high level of guidance security when slicing, & comfortable cutting of thick hair sections. Sharp, predictable cut thanks to semi-integrated cutting.

- Includes:
- Offset Scissor, 5.5 inch
- Offset Thinner, 5.75 inch (38 prism teeth & slice edge)
17534

Left Box
Functional design with a unique polished look. Pronounced shape, angled thumb eye design & removable finger hook for relaxed work. Stable cutting edge with wide dagger blade for high level of guidance security when slicing, & comfortable cutting of thick hair sections. Sharp, predictable cut thanks to semi-integrated cutting.

- Includes:
- Left Offset Scissor, 5.5 inch
- Left Offset Thinner, 5.75 inch (38 prism teeth & slice edge)
17535

LEFT

Man Box
Latest scissor technology in classic, pointed shape, & polished finish. Angled thumb eye for an ergonomic shape. Ideal for fine contours & classic men's haircut techniques. Long length scissors for efficient cutting. Sharp, predictable cut thanks to semi-integrated cutting & a long, stable, convex blade. Ideal for the contour area & transitions.

- Includes:
- Classic Scissor, 6.5 inch
- Classic Thinner, 6.25 inch (46 prism teeth & slice edge)
17536

TONDEO C-LINE

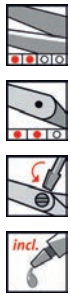

Offering precision cutting. The C-LINE series provides an alternative for all cutting techniques.
