1, 2, 3, We have LashLift! Introducing the ultimate boost for natural lashes, the HIVE® LashLift system. **Only for use by trained technicians.**

Take the beauty & volume of lashes into another stratosphere & create the effect of longer, lifted lashes. The LashLift system comprises of 3 liquid treatments: Lifting Crème (1), Treatment Lotion (2) & Conditioning Serum (3). When combined with HIVE® Lash Lifting Shields (A) & Bonding Serum (B), it creates everything required for a first class professional lash lift treatment.

An easy-to-follow 3 step journey to eyelashes that are out of this world! **1 - Lift, 2 - Treat, 3 - Condition**

Step 1: HIVE® Lash Lifting Crème

Applied to the base of the lashes, this highly effective crème, enhanced with Hydrolised Silk & Vitamin B3, weakens the disulphide bonds in each hair, allowing them to be re-shaped & lifted around the contour of the shield. This creates maximum lift.

10 x 1.5ml sachets
14971

Step 2: HIVE® Lash Treatment Lotion

Maintain, fix & hold the perfectly positioned & re-shaped lashes with the Lash Treatment Lotion (2). The smooth, silky lotion is applied to the same area as the Lash Lifting Crème (1), restoring the disulphide bonds in the expertly-crafted new shape.

10 x 1.5ml sachets
14972

Step 3: HIVE® Lash Conditioning Serum

A fast-acting serum that moisturises & conditions the eyelashes to maintain the results for up to 6-8 weeks. Aloe Vera promotes smoothness & a healthy shine in the hair. The dual-functioning Conditioning Serum (3) gently, but effectively, removes any tint or bonding serum residue for a fantastic finish.

10 x 1.5ml sachets
14973

Lifting Shields

Designed for use with the HIVE® LashLift system & available in 3 sizes, these silicone-based shields provide a unique contour to aid the re-shaping of natural lashes. The width of the Lifting Shields can be trimmed in length, enabling an absolutely perfect fit on the lash lid.
