NEW!

TANTRUTH

This range is a collection of luxurious, professional tanning products, designed & created by experts to deliver flawless color & results. Tantruth will put your store on the map as the new hot spot to buy the best looking, best performing tan in the market place.

Pre-Tan Exfoliating Scrub
An effective exfoliator with Skin Firming Technology to prepare the skin before tanning. Infused with rice particles, an ocean friendly alternative to micro-beads, & caffeine extracts, renowned for their antioxidant properties.

Gently exfoliates the skin so it is perfectly primed for tanning, ensuring the tan perfectly adheres, with an even & natural finish. Free of mineral oil. Gently massage onto skin, focusing on areas prone to dryness, such as elbows & knees.
250ml

A TAN FOR EVERY TONE. A SOLUTION FOR EVERY BODY.

We got a glow up! Say hello to the new, fresher Crazy Angel. With a professional & retail collection that boasts an impressive portfolio of tanning products - Crazy Angel will help achieve a flawless, glowing tan. The perfect, gorgeous addition to your salon.

Why Crazy Angel?

All Crazy Angel products are designed with comfort & sustainability in mind. Crazy Angel is free from alcohol, parabens & mineral oil, utilising skin-boosting extracts to hydrate & moisturise for longer-lasting tanning results. All products are now 100% vegan & always cruelty free. All bottles are made from up to 50% post-consumer recycled (PCR) materials to minimise the use of single use plastics.

This is not your typical tanning brand whereby you are limited to light & dark. Crazy Angel knows that everyone is unique, with skin tone varying greatly from person to person. Crazy Angel provides a professional & personalised tanning range that suits all skin tones & types, body shapes & sizes.

Crazy Angel's Prolong & Protect Tanning Agent & naturally sourced DHA ensures each product is formulated with only the finest natural ingredients to produce unrivalled tanning results. Skin is left with a beautiful tanning glow, while also being nourished & hydrated. Every tan looks its best with Crazy Angel's skin firming technology.

Tan Eraser

Formulated to gently & effectively remove self-tan to reveal a fresh base for new tanning. With Aloe Vera & Salicylic Acid, this delicate cleansing mousse removes tan in just 5 minutes, leaving the skin feeling silky-smooth & nourished.

USE: For best results, apply generously to dry skin 3 days after application of self-tan. Leave to soak into skin for 5 minutes. Shower using warm water & a face cloth or exfoliating gloves to gently wipe away the tan.

Body Polish

The replenishing Body Polish gently exfoliates to reveal fresh skin & the perfect base for tanning. The vegan, oil-free formula, infused with firming actives & Vitamin E, rebalances the skin while natural exfoliating ingredients gently scrub away dead skin cells. Skin is left feeling soft & refreshed.

USE: Gently massage onto dry or damp skin, focusing on areas prone to dryness, such as elbows & knees. Rinse off with warm water.
250ml
17584

Barrier Cream

Creates an invisible shield to protect problem areas prone to staining, such as the palms of hands, soles of feet, knees & elbows. A hydrating formula infused with Coconut & Aloe Vera helps to soften & smooth skin for the most flawless glow.

USE: Apply a thin layer onto areas that you do not wish to tan.

Professional Tanning Solution

Available in 3 DHA variants - 6%, 9% & 13%.

Professional tanning solution. The combination of naturally derived DHA & Prolong & Protect Tanning Agent produces a deep, natural finish free of streaks. Contains firming actives, Vitamin E & Hyaluronic Acid for optimum hydration.

USE: Shake well before use. Pour approximately 50ml of solution into spray gun cylinder. Spray a fine mist evenly over the body & face. Do not rub in or wipe, allow mist to dry. Tan will develop in 4-6 hours. Advise client to avoid contact with water during this period. Color guide will wash off when showering.

6% Light
Perfect for those looking for a light, glowing tan.
200ml
17588

9% Medium
Perfect for those looking for a natural, golden tan.
200ml
17587

13% Dark
Perfect for those looking for a dark, olive tan.

Gradual Tan

Build a daily natural tan with this lightweight gradual tanning formula. This moisturising lotion, with just a hint of Prolong & Protect Tanning Agent, creates a glowing tan. Enriched with nourishing Shea Butter to help smooth the skin, & Caffeine for firming the skin. Achieves a natural glow day after day.

USE: Apply daily to the face & body until desired color is achieved. Use circular motions when applying. Avoid elbows, knees & feet. Wash hands after application.
250ml
17590

Tanning Drops

Customise skincare & body products with personalised tanning drops for a tailor-made, effortless glow. Create a tanning solution that perfectly matches any skin tone.

Key active ingredients Shea Butter, Vitamin C & Hyaluronic Acid contain anti-oxidant properties to hydrate the skin, & fight free radicals & damage caused by UV rays. Mix these concentrated drops with any usual moisturiser or serum for a personalised, effortless glow with no streaks or transfer.

USE: Mix 5-12 drops into any moisturiser or serum in the palm of the hand & evenly apply to the skin. The more drops you add, the deeper the tan. Wash hands thoroughly after use.

Clear Self-Tan Mousse: Medium

Hydrating self-tan water to mousse formula enriched with skin-boosting extracts & acceleration technology. Contains Shea Butter, Vitamin C & Hyaluronic Acid to smooth & soften skin. This lightweight foam glides onto the skin for natural, glowing results with zero color transfer.

USE: Apply mousse to clean, exfoliated skin using a tanning mitt. Blend onto the skin in a circular motion & leave to develop for 4-6 hours.
200ml
17592

**Self-Tan Water: Medium**

Hydrate & glow with luxurious Self-Tan Water. With acceleration technology, this lightweight, clear formula is packed with skin-loving ingredients that will leave a natural, flawless tan.

Contains Shea Butter, Vitamin C & Hyaluronic Acid to smooth & soften the skin.

USE: Spray generously onto clean, exfoliated skin. Using a tanning mitt, blend in large, circular motions. Leave to develop for 4-6 hours.

200ml

17593

**Express Liquid Tan**

Easily glides onto the skin to give an instant bronzed glow that will continue to develop in just 4 hours.

The combination of Prolong & Protect Tanning Agent, with Vitamin E & Mexicana Flower Extract, will work to hydrate & enhance skin radiance. Results in a dark, flawless finish.

USE: Apply to clean, exfoliated skin. Spray directly onto a tanning mitt & evenly blend over the body & face in large, circular motions. Allow 5 minutes before dressing. Avoid contact with water for up to 4 hours.

200ml

17594

**Self-Tan Mousse: Medium/Dark**

This quick-drying mousse is the perfect lightweight solution to deliver a deep tan with a natural finish. Enhanced with Prolong & Protect Tanning Agent, along with firming actives & Shea Butter, this vegan formula helps to nourish & smooth the skin for a streak-free, natural, sun-kissed glow.

USE: Apply mousse to clean, exfoliated skin. Using a tanning mitt, blend onto the skin in large, circular motions. Leave to develop for 4-6 hours & shower to reveal a new, glowing tan.

245ml

17595

**Self-Tan Lotion: Medium/Dark**

Achieve a deep, long-lasting glow with this lotion. Enhanced with Prolong & Protect Tanning Agent, along with firming actives & Shea Butter, this quick-drying, lightweight formula will help to nourish & smooth the skin for a streak-free, flawless finish.

USE: Apply to clean, exfoliated skin. Using a tanning mitt, blend in large, circular motions, skimming over elbows, knees & feet. Allow 15 minutes to dry before dressing. Full color development is achieved in 6-8 hours. Avoid contact with water during this period. Color guide will wash off when showering.
